

In some of the counties, and in the city of Annapolis, and, it is believed, in Baltimore also, various taxes are levied in aid of the said Funds—but the sums of these, or of the funds belonging to the counties respectively *out of* the Treasury, cannot thence be learned.

The proper School Funds of the several counties, and of the city of Baltimore, remaining *in* the Treasury, are annually set forth in the Exhibit D. accompanying the Treasurer's general Report—which states also, the payments and investments for their account in the course of the year.

Their destination, both in leaving the Treasury and in their augmentation there, is for the establishment and support of Free Schools—but when, or in what sums, and whether they are immediately applied in dispensing education, or reserved for future application to that object after they are drawn from the Treasury, is not here known.

I am very respectfully, gentlemen,

Your most ob't serv't,

GEORGE MACKUBIN,

Treasurer Western Shore, Md.
